

# Press Release

Uden, 01 December 2010

## About Solid Semecs BV

Solid Semecs B.V. has the total solutions, with specialised know-how. This unique combination makes Solid Semecs a medium-to-large range provider of electronics manufacturing services in Europe. Solid Semecs has Competence Centres in the Netherlands, Germany and Manufacturing-plant in Slovakia. Semecs plans a double digit growth this year and the coming years.

## Statement

Solid Semecs has successfully deployed the ERP system MICROSOFT DYNAMICS NAV during the past 7 month for its Facilities in the Netherlands, Germany and Slovakia. The end-to-end supply chain solution covered Purchase, Financials, Inventory, Warehouse Management and Manufacturing. This will bring Solid Semecs the ability to serve the customers better and be ready for the future. In due time more and more functionality will be integrated to the ERP system where the supply chain will benefit from.
